He suggested that the attorney general should proceed on this theory with the association which has sixty-three members. It was enjoined recently from co-operation in fixing rates. STANDARD EMPLOYE TALKS.

Tells of Petty Tricks to Discredit Independent Concerns.

Chicago, Ill., May 12.—Hibbs, the Standard's former agent at Peoria, told the interstate commerce commission today that the Standard had maintained a school for teaching tricks to worry competitors. One scheme consisted of stopping holes in the burner of a lamp using the rival oil, and causing it to smoke. Another was placing the lamps burning the Standard oil beside another burning independent oil, while the wick of the rival lamp was secretly made wet, thus preventing the wick carrying oil. Another trick was doctoring lubricating oil. Hibbs told of bribing machinists to put injurious substances in the lubricating oil sold by the independents. His instructor was Frank Bush, of the Peoria office, he said.

NORTH VS. SOUTH ENDERS.

The Tulsa base ball players, the "North Enders," vs. the "South Enders," played ball this morning at Athletic Park and completely east in the shade the efforts of their big brothers, the "Oilers."

The game was a sensational one from start to finish, and was featured by exceptional batting, runs and scores. It was no "give-away" game—nothing snide about it, but just red hot playing by both sides.

The result was 15 to 8 in favor of the South Enders. Batteries for the South Enders, Gilmore and Thurman; for North Enders, Rogers and Moran.

NOT FEDERAL COURTS.

Judge Irwin's Idea of Oklahoma
Tribunals.

Guthrie, Okla., May 12.—Judge Clinton F. Irwin, associate justice of the Oklahoma supreme court, maintains that the Oklahoma courts are not United States courts under the meaning of the federal statutes and that the laws regarding federal courts and federal judges, including the provisions which forbid the appointment of relatives to office, do not apply in this territory.

Some judicial decisions have been rendered to the contrary, however, and that department of justice has treated Oklahoma court officers as federal officers in its prosecution of T. A. Neal, former clerk of the district court, who is under indictment for embezzlement.

The Oklahoma courts are probably unique in the country in that both territorial and federal cases can come before the same judge and the same jury at the same sessions of the court. When the court convenes in any county, a grand jury is empaneled as a federal grand jury, and takes up federal offenses. After it has made its report on these, it will be reorganized as a territorial grand jury, and still later may take up again federal matters. The same condition is true in regard to the petit juries for the trial of criminal cases, which will consider both federal and territorial cases at the same term of court and with the same judge presiding. Of federal courts with civil jurisdiction there are none in Oklahoma. Some cases which may be taken up by the Oklahoma supreme court, and for others there is no place at all.

TO ORGANIZE W. O. W.

TULSA MEMBERS GET BUSY

Meeting Called for Tonight at the
Darrow Music Company.

Members of the Woodmen of the World lodge in this city have been running into each other every day for the last two or three months, and it has been finally decided that such a good organization should not be left to languish in innocuous desuetude. There must be at least 100 Sovereigns in Tulsa, and it has come to the minds of several of them that the organization of a local camp would be a good idea. With this end in view, the following call was issued today:

"It being apparent that there are more than sufficient sovereigns in this city for the maintenance of a local camp, a meeting is hereby called for tonight at the office of the Darrow Music Company, for the purpose of organization. Every W. O. W. is earnestly requested to be present, and assist in the work. In the coming metropolis of the coming state, an order of the importance of the W. O. W. should stand out distinctive, and your co-operation is asked to that end. The W. O. W. is not only a great insurance order, but in all other camps is recognized as one of the gliding social orders. With a permanent organization, and the assistance of a Ladies Auxiliary, there is no reason why Tulsa should not have a camp of more than ordinary influence."

Mrs. Blanche Scudder will leave for Colorado in a few days.

ELEVEN INNING GAME

MUSKOGEE BESTED TULSANS.

Oilers Had Game Won in Ninth, But
Allowed It to Slip Away.

The first appearance of the Muskogee Indians on the local grounds was in a contest yesterday which gave heart failure to the fans. With the game won after a fast game to the tune of two to one against the leaders, the Oilers allowed the Coffee Coolers to hang out two dinger hits and coupled with an error to tie the score. In the eleventh the Muskogeeans swatted the ball for two runs, giving them victory by a score of 3 to 1. The game was the fastest seen on the local grounds this season. The Muskogee Indians, who have lost but one game this season, put up a good game, but the Oilers were not quite fast enough for the Coffee Coolers. They could not get the foolers put over by the Oilers.
